Independent Auditors' Review Report Translated From Chinese

Foreword

We have reviewed the accompanying consolidated balance sheets of OFCO Industrial Corp. and subsidiaries (hereinafter collectively referred to as "OFCO Group") as of September 30, 2023 and 2022, and the related consolidated statements of comprehensive income for the three-month and nine-month periods then ended, as well as the related statements of changes in equity and of cash flows for the nine-month periods then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. The preparation of consolidated financial statements in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting", as endorsed by the Financial Supervisory Commission, is the responsibility of the Company's management. Our responsibility is to the express the conclusion of the financial statements based on our review.

Scope of Review

We conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the financial position of the Corporation and its subsidiaries as of September 30, 2023 and 2022, its consolidated financial performance for the three months ended September 30, 2023 and 2022, and nine months ended September 30, 2023 and 2022, and its consolidated cash flows for the nine months ended September 30, 2023 and 2022 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

4. Summary of significant accounting policies

Except for the declaration of compliance, basis of preparation, basis of consolidation and applicable parts of interim financial statements, the major accounting policies are the same as those in Note 4 to the consolidated financial statements in 2022. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Statement of compliance

- A. The consolidated financial statements have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and IAS 34 "Interim Financial Reporting", as approved by the FSC.
- B. This consolidated financial report should be read together with the 2022 Consolidated Financial Report.

(2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
 - (1) Financial assets at fair value through profit or loss (including derivatives).

- (2) Financial assets at fair value through other comprehensive income.
- (3) The defined benefit asset is recognized as the net of the present value of the defined benefit obligation of the pension fund.
- B. The preparation of consolidated financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, Interpretations and Interpretative Pronouncements as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. The application of the Company's accounting policies also requires management to exercise its judgment in the process of applying those policies that involve a higher degree of judgment or complexity, or items that involve significant assumptions and estimates in the consolidated financial statements. Please refer to Note 5 for a description of significant accounting judgments, estimates and key sources of assumption uncertainty.

(3) Basis of consolidation

A. The basis for preparation of consolidated financial statements

The preparation principle of this consolidated financial report is the same as that of the consolidated financial report of the 2022.

(4) Employee benefits

Pension - Defined Benefit Plan

The pension cost for the interim period is calculated using the actuarially determined pension cost rate from the beginning of the year to the end of the current period as of the end of the previous financial year. If there are significant market changes and material curtailments, liquidations or other significant one-time events after such closing, they will be adjusted and the relevant information will be disclosed in accordance with the aforementioned policy.

(5) Income tax

Income tax expense for the interim period is calculated by applying the estimated average annual effective tax rate to the income before income tax for the interim period and disclosing the related information in accordance with the accounting policies.

5. Critical Accounting Judgements and Key Sources of Estimation and Uncertainty

There is no significant change in the current period, please refer to Note 5 to the consolidated financial statements in 2022.

(19) Pensions

A. In accordance with the "Labor Standards Act", the Company and its subsidiaries have defined benefit pension plans that apply to all regular employees' years of service prior to the implementation of "Labor Pension Act" on July 1, 2005, and to employees who elect to continue to be subject to the Labor Standards Act for subsequent years of service after the implementation of "Labor Pension Act". For employees who meet the retirement requirements, pension payments are calculated based on the length of service and the average salary for the six months prior to retirement, with 2 bases for each year of service up to and including 15 years and one base for each year of service over 15 years, up to a maximum of 45 bases. The Company and its subsidiaries contribute 2% of salaries and wages to a monthly pension fund, which is deposited in the Bank of Taiwan in the name of the Labor Pension Fund Supervisory Committee (except that the Company suspended the contribution to the Labor Pension Fund until March 31, 2024, as approved by the competent authority). Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned

labor pension reserve account by December 31, every year. If the account balance is not sufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contribution for the deficit by the end of March of the following fiscal year. Information regarding the above defined benefit retirement plan is disclosed below:

- 1 From July to September of 2023 and 2022 and January to September of 2023 and 2022, the Group recognized pension costs of \$- in accordance with the above pension plan.
- (2) The Group estimated contribution to the retirement plan for the 2024 is \$-.
- B. Effective July 1, 2005, the Group has established a "Defined contribution pension plan" in accordance with the "Labor Pension Act", which is applicable to employees of the Company. Under the New Plan, the Company contributes monthly an amount not less than 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The Group recognized pension costs of \$3,546 and \$3,624 and \$11,013 and \$10,532 from July to September of 2023 and 2022 and January to September of 2023 and 2022, respectively, based on the above pension plan.

(22) Share-based payment to employees

A. Compensation Employee Stock Option Program

On October 21, 2020, the Company issued 3,000 units of employee compensation stock options at a price of NT\$21.6 per unit, which is based on the closing price of the Company's common stock on the date of issuance, and the number of shares of common stock to be subscribed per unit of stock options is 1,000. If there is a change in the shares of the Company's common stock after the issuance of the stock options, the price is adjusted according to a specific formula. As of September 30, 2023, the subscription price for employee stock options has been adjusted to NT\$18.7. The stock options issued are valid for a period of 5 years, and employees may exercise their stock options in annual installments after 2 years of employment from the issuance date in accordance with the Employee Stock Option Regulations. The compensation cost of the Company's compensated employee stock options recognized from January to September, 2023 and 2022 (relative to the item listed as "Additional paid-in capital-Employee Stock Options") was \$621 and \$1,511, respectively. In addition, 913 thousand shares were granted to employees of the subsidiary over three years period. Therefore, the subsidiary recognized compensation cost (corresponding to the item listed as "Additional paid-in capital-Employee Stock Options") of \$452 and \$1,323 from January to September, 2023 and 2022, respectively.

1) The number of options and the weighted-average exercise price of the stock option plan for compensated employees from January to September, 2023 and 2022 are disclosed as follows:

(23) Retained earnings

- A. Legal reserve may not be used except to offset losses or to issue new shares or cash in proportion to the shareholders' original shares, provided that the amount of new shares or cash issued shall be limited to the portion of the reserve that exceeds 25% of the paid-in capital.
- B. In accordance with the Company's Articles of Incorporation, if there is any surplus in the Company's annual accounts, the Company shall first pay taxes and make up for accumulated deficits, and then set aside 10% as legal reserve (except when the legal reserve has already reached the total capital), and the remainder, in addition to dividends, shall be distributed as dividends to shareholders if there is any surplus. The Company's dividend policy is based on the Company's future capital budget plan to measure the capital requirements for future years, and the remaining earnings will be distributed in the form of cash dividends only after the Company has decided to use retained earnings to meet the capital requirements. The Board of Directors shall prepare a proposal for the distribution of earnings in accordance with the order and rate of distribution of earnings as provided for in these Articles of Incorporation, and the proposal shall be approved by the shareholders' meeting.

The surplus distribution in the preceding paragraph, in accordance with Article 240, Item 5 of the Company Law, authorizes the board of directors to present at least two-thirds of the directors and a resolution of more than half of the directors present to distribute all or part of the dividends and bonuses to be paid in cash, and report to the shareholders meeting.

The Company considers a balanced and stable dividend policy and, depending on the demand for investment capital and the dilution of earnings per share, dividends to shareholders should be 50% to 100% of accumulated distributable earnings and should be paid in the form of appropriate stock dividends or cash dividends, with cash dividends to be distributed at no less than 50% of shareholders' dividends.

C. Special reserve

- ① When the Company distributes earnings, the Company is required by law to set aside a special reserve for the debit balance of other equity items as of the balance sheet date of the year in order to distribute the earnings.
- (2) When the Company first adopted IFRSs, the special reserve of NT\$7,745 was provided for in accordance with FSC No. 1010012865 dated April 6, 2012. When the Company subsequently uses, disposes of or reclassifies the related assets, the Company reverses the percentage of the special reserve originally provided for.
- D. The board meeting on March 23, 2022, resolved to distribute 2021 earnings as cash dividends of \$84,940 (NT\$0.95 per share). The board meeting on March 22, 2023 resolved to distribute 2022 earnings as cash dividends of \$199,417 (NT\$2 per share).

A. In accordance with the Company's Articles of Incorporation, the Company shall contribute 1% to 3% of the current year's profitability as compensation to employees and not more than 3% as compensation to directors. However, where there are accumulated losses, an equivalent amount shall be appropriated to compensate for the losses. Employees may be paid in stock or cash. The distribution of employees' remuneration and directors' and supervisors' remuneration shall be made by a resolution of the board of directors with at least two-thirds of the directors present and a majority of the directors present, and reported to the shareholders' meeting.

The above-mentioned profit status for the year refers to the pre-tax profit prior to deducting compensation of employees and remuneration of directors.

B. The Company's estimated amounts of employees' remuneration were (\$939), \$2,064 and \$749, \$4,543 from July to September of 2023 and 2022 and January to September of 2023 and 2022, respectively; the estimated amounts of directors' remuneration are (\$939), \$4,129 and \$749 and \$9,087, respectively. Information on employees' remuneration and directors' remuneration approved by the Company's board meeting. The board resolution on March 22, 2023 approved the actual distribution of employee and director remuneration were both of NT\$7,390, the difference from the employee remuneration of \$7,472 and the director compensation of \$7,435 recognized in the 2022 financial report is \$127. The main series of calculation differences had adjusted in the profit and loss of 2023.

Information on employees' remuneration and directors' remuneration approved by the Company's board meeting can be found on the MOPS.

11.Material Events After the Balance Sheet Date

(1) On November 8, 2023, the Board of Directors of the Group resolved to purchase TSG POWER Corp.100% equity from Yung Fu Co., Ltd. no more than net value \$194,554 on September 30, 2023, for the Group's efficient operations management and increase investment profits.

(2) On November 8, 2023, the Board of Directors of the Group resolved to purchase TSG Construction Corp.100% equity from TAIWAN STEEL GROUP UNITED CO., LTD. by \$19,970, for business diversification and to diversify investment risk.

12. Others

(1) Capital management

The Group's capital management objectives are to protect the Company's ability to continue as a going concern, to maintain an optimal capital structure to reduce the cost of capital, and to provide returns to shareholders. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) Financial instruments

A. Types of financial instrument

For the types of the Group's financial instruments used, please refer to Note 6 and Note 12, (3) explanation of fair value information.

B. Risk management policies

- (1) The Group's daily operations are subject to a number of financial risks, including market risk (including exchange rate risk, interest rate risk and price risk), credit risk and liquidity risk. In order to reduce the adverse effect of uncertainty on the Group's financial performance, the Group enters into forward exchange rate contracts to hedge the exchange rate risk.
- 2 Risk management is carried out by a central finance department (Group finance) under policies approved by the Board of Directors. The Group's Finance Department is responsible for identifying, assessing and hedging financial risks by working closely with the Group's operating divisions.

C. Significant financial risks and degrees of financial risks

(1) Market risk

a. Foreign exchange risk

- (a) The Group's management has established a policy that requires the Group to manage its exposure to exchange rate risk relative to its functional currency. Hedging of its overall exchange rate risk should be performed through the Corporate Finance Department. Exchange rate risk is measured by using forward foreign exchange contracts to reduce the impact of exchange rate fluctuations on the expected collection of accounts receivable through highly probable expected transactions of Euro and US dollar expenses.
- (b) The Group uses forward exchange rate transactions to hedge its exposure to exchange rate risk, but does not meet all the criteria for hedge accounting and therefore accounts for financial assets or liabilities measured at fair value through profit or loss.
- (c) The Group engages in operations involving certain non-functional currencies (the functional currency of the Company and subsidiaries is the New Taiwan dollar) and is therefore subject to exchange rate fluctuations. Information on foreign currency assets and liabilities with significant exchange rate fluctuations is as follows:

| | September 30, 2023 | | | | |

- a. The sensitivity analysis of foreign currency exchange rate risk is calculated mainly for foreign currency monetary items as of the end of the financial reporting period. If the New Taiwan dollar had strengthened -/weakened by 1% against the U.S. dollar, the Euro and the Japanese yen, all other factors remaining constant, the Group's net income would have increased/decreased by \$1,624 and \$3,695 for January through September of 2023 and 2022 respectively.
- b. Total exchange gain, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Group for the three months and nine months ended September 30, 2023 and 2022 amounted to \$3,516, \$18,540, \$15,116 and \$32,156 respectively.

b. Price risk

- (a) The Group's equity instruments that are exposed to price risk are financial assets held at fair value through other comprehensive income. In order to manage the price risk of investments in equity instruments, the Group diversifies its investment portfolio in accordance with the limits set by the Group.
- (b) The Group invests primarily in equity instruments issued by domestic companies. The prices of these equity instruments are affected by the uncertainty of the future value of the underlying investments. If the price of these equity instruments had increased or decreased by 1%, with all other factors held constant, the benefit or loss to shareholders' equity from equity investments measured at fair value through other comprehensive income would have increased or decreased by \$1,081 and \$851 from January to September 2023 and 2022, respectively; as for the other comprehensive income classified as equity instruments at fair value through other comprehensive income, it is \$1,076 and \$1,082 respectively.

c. Cash flow and fair value interest rate risk

The Group's borrowings are floating-rate financial instruments. Therefore, changes in market interest rates will cause the effective interest rates of debt-type financial instruments to change accordingly, resulting in fluctuations in their future cash flows. This risk is partially offset by cash and cash equivalents held at floating interest rates. With respect to the sensitivity analysis of interest rate risk, a 10% increase/decrease in borrowing rates, with all other factors held constant, would have increased/decreased net income by \$426 and \$468 from January to September 2023 and 2022, respectively, mainly due to the increase/decrease in interest expense as a result of floating rate borrowings.

(2) Credit risk

- a. The Group's credit risk is the risk of financial loss arising from the failure of customers or counterparties to financial instruments to meet their contractual obligations, mainly from the failure of counterparties to settle accounts receivable on collection terms.
- b. The management of credit risk is established with a Group perspective. In accordance with the internal credit policy, the Company and each new customer are required to manage and analyze the credit risk before setting the terms and conditions of payment and delivery. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilization of credit limits is regularly monitored.
- c. The Group adopts IFRS 9 to provide the following premise assumptions. When a contractual payment is more than 90 days past due according to the contractual payment

- terms, the credit risk of the financial asset is considered to have increased significantly since the original recognition.
- d. In accordance with credit risk management, the Group starts to assess impairment when contractual payments are overdue for a certain number of days in accordance with the contractual payment terms.
- e. The Group estimates the expected credit losses based on the loss ratio method and the allowance matrix by grouping the notes and accounts receivable of customers according to the credit terms, and adjusts the loss ratio based on historical and current information of a specific period to estimate the allowance for losses on notes and accounts receivable by taking into account the prospective future. The following is a summary of the changes in the allowance for losses on notes and accounts receivable for which the Group has adopted the simplified approach:

| | January to September 2023 | | | | | | | |
|--|---------------------------|---------------------------|-------|--|--|--|--|--|
| Deleges of heating to a seed | Notes receivable | Accounts receivable | Total | | | | | |

| | Notes receivable | Accounts receivable | Total | | | | | |
| Balance of beginning and | | | | | | | | |
| ending period | \$ - | \$ 23 | \$ 23 | | | | | |

(3) Liquidity risk

- a. Cash flow forecasting is a process whereby the Finance Department monitors the forecast of the Group's liquidity requirements to ensure that it has sufficient funds to meet its operational needs and maintains sufficient unspent borrowing commitments at all times so that the Group does not breach the relevant borrowing limits or terms.
- b. In the event that the Group holds surplus cash in excess of the working capital management requirements, the Group's Finance Department invests the surplus funds in interest-bearing demand deposits and time deposits in instruments of appropriate maturity or sufficient liquidity to meet the above forecast and to provide sufficient level of dispatch. As of September 30, 2023, December 31, 2022 and September 30, 2022, the Group held money market positions of \$1,037,081, \$1,222,046 and \$945,049, respectively, which are expected to generate immediate cash flow to manage liquidity risk.
- c. The Group's unutilized borrowings are shown as follows:

| | September 30, 2023 | | December 31, 2022 | | <u>September 30, 2022</u> | |
|---------------------------------------|--------------------|-----------|-------------------|-----------|---------------------------|-----------|

d. The following table shows the Group's non-derivative financial liabilities, grouped by the relevant maturity date. Non-derivative financial liabilities are analyzed based on the remaining period from the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities available to the enterprise at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks, beneficiary certificates and others are included in Level 1.
 - Level 2: The observable input value of assets or liabilities, directly or indirectly, except for those included in the quoted prices in Level 1. The call options fair value of the Group's convertible bonds is included in Level 2.
 - Level 3: Unobservable inputs to assets or liabilities. The fair value of the Group's investment in stock of private entity is included in Level 3.
- B. Fair value information of investment property at cost is provided in Note 6(11).
- C. Expect for bonds payable (including those due within one year) paid as expected for cash flow of the balance sheet date of market interest rates discount is measured at present value, the Group's financial instruments that are not measured at fair value (including cash and cash equivalents, financial assets at amortized cost current, notes receivable, other notes receivable, accounts receivable (including related parties), other receivables, financial assets at amortized cost non-current, refundable deposits, short-term loans, short-term bills payable, notes payable (including related parties), accounts payable (including related parties), other payables, long-term loans (including those due within one year) and guarantee deposit received) approximate their fair values.
- D. Financial instruments carried at fair value are classified according to the nature, characteristics and risks of the assets and liabilities and the basis of the fair value hierarchy. The related information is as follows:

E. The methods and assumptions used by the Group to measure fair value are described below:

¹⁾ The Group adopt market pricing as the input of fair value (i.e. Level 1), and the breakdown of the characteristics of the instrument is as follows:

| | <u>Listed shares</u> | Open-end funds |
|---------------------|----------------------|-----------------|
| Market quoted price | Closing price | Net asset value |

- 2 Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques method can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.
- 3 The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- F. There was no transfer between Level 1 and Level 2 from January to September, 2023 and 2022.
- G. The following table is the change of Level 3 financial instruments from January to September, 2023 and 2022:

| | January to September 20 | | |
|---|-------------------------|--------|--|
| | Equity instruments | | |
| January 1 | \$ | - | |
| Transfer from equity method investment | | 18,332 | |
| Benefits recognized in other comprehensive income | | 1,310 | |
| September 30 | \$ | 19,642 | |

There were no such events from September 30 of 2022.

(Note) Transfer from equity method investment, please refer to Note 6(8) for Equity method investment.

- H. Financial Department is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the source of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.
- I. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement.

| | r value at tember 30, | Valuation technique | Significant unobservable input | Range (weighted average) | Relationship of inputs to fair value |
|------------------------|-----------------------|-----------------------------------|--|--------------------------|---|
| Non-derivative equity: | | | | | |
| Unlisted shares | \$ 19,642 | Market comparable companies | (1) Price to earnings ratio multiple | 2.56 | The higher the multiple and control premium, the higher the fair value |
| | | | (2) Discount for lack of marketability | 20% | The higher the discount for lack of market- ability, the lower the fair value |

J. The Group has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

| | | | September 30, 2023 | | | | | |
